## HIGH QUALITY, LOW INPUT.

**SUSTAINABLE  
VARIETY**

**REDUCED  
INPUTS**

**HEAT  
TOLERANCE**

**DECREASED  
WATER USE**

In order to aid turf grass managers the **ALLIANCE FOR LOW INPUT SUSTAINABLE TURF® (A-LIST®)** seeks to influence turf grass breeding by creating trial guidelines and evaluation protocols to identify the best performing turfgrass varieties under reduced inputs and management.

To ensure the integrity and independence of the program, testing is conducted by nationally recognized cooperators, selected on a regional basis to include environmental adaptability. These cooperators also participate on an Advisory Committee to further influence protocols. Participation in the independent and geographically diverse **National Turfgrass Evaluation Program (NTEP)** is also a requirement for the approval process.
